

## Stitch 'n Bitch Crochet: The Happy Hooker Clarification for "Short n Sweet" pattern

*The following information may help those who are having difficulties with the front shaping section of this pattern. Please see also the errata page for the book, located at <http://www.bust.com/knithappens/snbhh-errata.pdf>*

Although there is no error in the pattern, there seems to be some confusion regarding the shaping on Rows 6 through 9 of the Right Front. These rows will add a half pattern to the front edge. Row 6 of the established pattern has a half shell on each end of the row. In Row 6 of the Right Front, you will work an increase by working a complete shell at the beginning of the row instead of a half shell. Then on Row 7, you just work in established pattern across, working in the last complete shell maintaining the established pattern for Row 7 for the stitches you have added. Then, work Row 8 in

established pattern across. In order to finish the extra half pattern on the front edge, you need to attach a separate strand at the beginning of Row 8 and ch 3, then fasten off. This extra "chain" will be worked into on Row 9. Go back to the end of Row 8 and pick up the "dropped loop" to work Row 9. Work in established pattern across till you get to the added "ch 3", ch 2, skip first 2 ch of added "ch 3", V-st in last ch. You will now have a half pattern at the underarm side and a full pattern at the front edge. Just continue to work across 1 1/2 (1 1/2, 2 1/2, 2 1/2) patterns.
